Tax Residency Self-Certification Form - ENTITY

As a result of the Australian Government agreeing to participate in the exchange of information with other jurisdictions under the Foreign Account Tax Compliance Act (FATCA)¹ and Common Reporting Standard (CRS)², Financial Institutions are required to undertake due diligence to determine account holders' jurisdiction of tax residence. You can provide this information by completing this form. If the account is in the name of an individual or joint individuals, or an Australian Retirement Fund, go online at www.computershare.com/au/selfcertification

If you have received this form it is important the account holder's jurisdiction of tax residence is certified. If not certified, the Financial Institution in which you are a securityholder may be required to report the securityholder's name, address, amounts paid to the account and value of securities to the Australian Taxation Office who may report those details to the Internal Revenue Service of the United States and possibly other tax authorities.

If the entity certifies they are a tax resident outside of Australia or in the case of a Passive Non-Financial Entity, any of their controlling persons are certified as a tax resident outside of Australia, the Financial Institution in which you are a securityholder may be required to report the securityholder's name, address, amounts paid to the securityholder and value of securities to the Australian Taxation Office who may report those details to the tax authority in which you are a tax resident.
